GENERAL DOMAINS AND PROCEDURE FOR REGISTRATION SUBDOMAINS

The purpose of this procedure is to set forth the list of General Domains and the terms and conditions of registering Subdomains under them pursuant to Clause 3.3.2 of the Domain Rules of the Estonian Internet Foundation.

1. Terms and conditions of registering Subdomains under General Domains

1.1. General Domains are used to group and distinguish the Domain Names of persons and institutions with similar characteristics.

1.2. The Registrar must enclose the documents that prove the Registrar's compliance with the characteristics of the relevant General Domain listed in Clause 2 with the application for registration of a Domain Name.

1.3. The Registrar checks the compliance of the data submitted by the Registrar with the characteristics listed in Clause 2 before registering a Subdomain under a General Domain.

2. List and characteristics of General Domains

2.1. com.ee – commercial undertakings for the purposes of the Commercial Code;

2.2. pri.ee – natural persons;

2.3. fie.ee – sole traders for the purposes of the Commercial Code;

2.4. med.ee – medical institutions.
